Dear Cal EPA

Please change your tolerance level to Zero for glyphosate! Future generations will curse us for our failure to reign in government/corporate collusion in choosing profits over people!

Europe has the *precautionary principle* and we in amerika should do the same!

Glyphosate herbicide has been found in tap water, our children's urine, mother's breastmilk, and childhood vaccines.

Glyphosate has been shown by Monika Kruger of Germany to bioaccumulate in bone marrow, muscle tissues etc.

Glyphosate has been shown to be a neurotoxin, chelator, antibiotic, and carcinogen which also causes liver disease.

One way glyphosate functions is by breaking down the blood-brain barrier and allowing other toxins (such as those found in vaccines and herbicides) into the brain.

We MUST demand a ZERO safe level of glyphosate.

Hope you do the right thing.

Tlaloc Tokuda
